

Waterproof Light / agrilite / PD-JV-23

Designed for the agricultural sector, agrilite is the perfect solution for all types of farms. Its IP67 certification ensures complete sealing against dust, dirt, steam and water. It can be submerged, and cleaned with chemicals. It is available in 2700K with a power of 20W and in 5000K with a selectable power of 20W or 30W. **It can be dimmed without any flicker up to zero**, reproducing a sunrise and a sunset. It is classified K08 for its resistance to shocks and V-0 for its resistance to flames. Easy to install, it has a hinged opening, which provides easy ½ or ¾ in access for cables and conduit entries, and a closing clip completed with just three screws. Its driver is accessible.

A high-performance, maintenance-free light, it is versatile and suitable for a multitude of locations, including parking lots, warehouses, refrigerators and it can also be used for residential use.
